**optional* throat protector, sleeves, groin guard,
split-back collar, and 1" molle webbing.

WOLVERINE™

SPECIAL OPERATIONS TACTICAL

WOLVERINE DM 360™

The Wolverine DM 360™ was developed in response to requests from tactical officer's desire for 360 degree hard armor protection. We also included features desired by the army in its pursuit of its next generation body armor, the IOTV (Improved Outer Tactical Vest). The Wolverine DM 360 is very similar to the IOTV & MTV with its side opening style, increased surface area protection, integrated side plate carriers (pockets) and increased area for MOLLE. This vest is state-of-the-art for the military operator and can be customized with options to suit mission needs. A fully loaded Wolverine DM 360 is truly a "soldier as a system" design.

- Side pockets for 8"x6" inserts
- Solid front – side opening
- External 6" wide side straps adjust with Velcro® under front flap
- Adjustable shoulder system
- Over-the-Shoulder ballistic protection
- Choice of external or internal 10"x12" or 8"x10" front & back plate pockets
- Rear drag-strap
- Mic wire guide
- Heavy duty Poly Duck fabric
- Pull down groin and rear/tail guard pockets to hold optional protectors
- Hydration pocket to hold optional hydration system
- 4"x12" front and back attachment points for optional ID tags

*Options:

- Split-back collar
- Ballistic sleeves - upper arm
