H-SHOCK

A smaller version of our H-Shock Special Threat Plate, the H-Shock UpArmor insert is a cost effective way to protect against light rifle threats, while in a concealable carrier.

Ceramic/composite design. Water repellent polyurethane coated 1000 Denier CORDURA® fabric finish. Made in the U.S.A.	
Thickness: 0.6 ins	
5"x8"	1.80 lbs
Tested to the following rounds:	
5.56mm x 45mm 55gr Ball (M193)	
5.56mm x 45mm 62gr (M855 Green Tip)	
7.62x39 M67 ball / M43 (Mild Steel Core)	
7.62x39mm API	

C-SHOCK

Finally, a Special Threat Rifle plate **light** enough and **thin** enough to fit into the trauma pocket of your concealable vest.

Uni-directional Polyethylene and Ceramic; rubberized coating	
Thickness: 0.55 ins	
5"x8"	1.70 lbs
Tested to the following rounds:	
SPEER .357 SIG 125gr FMJ FN	
SPEER .44 MAG 240gr SJHP	
5.56mm x 45mm 55gr Ball (M193)	
5.56mm x 45mm 62gr (M855 Green Tip)	
7.62mm x 39mm 123gr PS Ball (Mild Steel Core)	

SPECIAL THREAT TESTED

Threats in today's world are unpredictable. Wearing concealable soft armor doesn't mean that you can't also have light rifle protection as well. Never compromise.

A special threat plate that will fit in the trauma plate pocket of your concealable or overt vest can give you peace of mind regardless of what you come up against. Both the H-Shock and C-Shock plates are capable of stopping more than your average trauma plate.

CONCEALED RIFLEPLATE

Comprised of Uni-directional Polyethylene and Ceramic, the C-Shock Plate brings a revolutionary concept to your concealable vest - Rifle Protection. Tested to some of the most common rifle rounds on the street (AK-47 PS Ball, .556 Ball, .556 Green Tip), this plate has the strength to truly make a difference, while retaining a thin, lightweight profile that can fit into the soft trauma pocket on your vest. At 1.7lbs, you no longer have to make a choice between comfort and protection. You can have it all.
